REQUEST FOR PROPOSAL No. 10-48

NEWTON FREE LIBRARY CAFE

Introduction

The City of Newton is requesting proposals for the operation of a cafe at the Newton Free Library. The cafe will provide drinks, snacks, sandwiches and salads to library patrons and employees. The library intends that the cafe will provide its patrons with high quality fare at good value. The successful proposer will have access to a small kitchen and an area where food is to be consumed.

Decision to Use Competitive Sealed Bids

The Chief Procurement Officer has determined that in order to select the most advantageous proposal to operate the cafe at the library, comparative judgments of various factors will be necessary. The food offered needs to be of high quality, with good variety and good value. In addition the successful proposer will be one whose business plan for operation of the Cafe demonstrates a thoughtful and realistic projection of the associated revenue and expenses. The City will also evaluate a proposer's business and catering and/or restaurant background to determine that the proposer can successfully provide the services expected. Each proposer will be interviewed by an Evaluation Committee, and prepared samples of proposed menu selections must be presented for evaluation by the Committee.

Inasmuch as the City is providing the Cafe space and required utilities at no cost outside of the \$1.00 per year license fee and there will be no further monetary transaction between the contractor and the City pursuant to this contract, there will be no Cost Proposal associated with this Request for Proposals. The successful proposal will be selected solely based on evaluation of the Technical Proposal as defined herein.

Proposal Deadline

All proposals must be submitted to the Chief Procurement Officer in the Purchasing Department, Newton City Hall, 1000 Commonwealth Avenue, Newton, MA 02459 **no later than 10:00 a.m., March 18, 2010**. Proposals must be submitted in a sealed envelopes, plainly **marked "RFP No. 10-48 Proposal for Library Cafe"**. There will be no public opening of proposals. The names and addresses of all parties submitting proposals will be recorded and the proposals then provided to the committee selected to evaluate them.

A Pre-proposal meeting shall be held at Newton City Hall, Room 204, at **10:00 a.m., March 11, 2010** for all those interested in submitting a proposal.

Scope of Work and General Requirements

1. The successful proposer ("Operator" hereafter) will provide library patrons with a basic menu of high quality, varied food and drinks. Approximately 2,000 people use the library each day. Menus and price ranges are to be determined in advance, and must be approved by the Library Director. The City expects that the Cafe will operate at **minimum Monday through Friday from approximately 9 a.m. to 4 p.m.** Records indicate that the Library's Saturday hours, 9:00A.M. to 5:00 P.M. and Sunday hours, 1 p.m. to 5 p.m. (September through June) are heavily used, and the Operator may want to consider hours of operation during that time.
2. The City will license the Operator to use the space as shown on the attached Exhibit A for the sole purpose of operating a cafe in accordance with this RFP. The cost of electricity, gas, water and sewer will be provided by the library. The following equipment is installed in the space identified as Kitchen on Exhibit A and will be available for use by the Operator:
 - 15 cu. ft. top mount refrigerator/freezer
 - Double stainless steel sink
 - 30" 4 burner electric range
 - microwave oven
 - dishwasher

3. The Operator shall be responsible for the provision of furnishings for the Café eating area consisting of 10 tables, 20 chairs, and waste receptacles.
4. The Operator shall be responsible for all required cleaning, maintenance contracts and minor repairs to the equipment provided by the City. A minor repair is defined as a repair to a specific piece of equipment costing \$250.00 or less.
5. The Operator will obtain at its sole expense all local, state or federal licenses and/or approvals necessary for its operation of a cafe in the premises and shall maintain such licenses/approvals throughout the time it uses the premises pursuant to this RFP. The Operator will comply with all local, state and federal laws and ordinances in operating the cafe. All food code regulations will apply to this facility (MA State Food Code 105 CMR 590)
6. The Operator shall be responsible to provide any additional equipment and/or improvements to the premises which are required by reason of its operation of the cafe in the premises. Any modifications to the space or additional equipment which the Operator on its own deems necessary to the operation of the Cafe must be provided by the Operator. All such modifications or additional equipment to be delivered to or installed in the Cafe space must be approved in advance by the Library Director. The City reserves the right to perform any proposed modification to the space with its own work crews. Any equipment, fixture or appurtenance the installation of which requires a permanent alteration to the building structure shall become the property of the City upon expiration or termination of the agreement. The City may, at its discretion may allow the Operator to remove equipment, fixtures or appurtenances if the Operator at its own expense and to the City's satisfaction restores the building structure to its condition prior to installation.
7. The Operator shall provide all required dishware, flatware, paper goods and other utensils and appliances required for the serving and consumption of the menu items. Commercial quality paper/plasticware for patrons use will be acceptable.
8. For purposes of food preparation, cleaning, etc. the Operator will be allowed access to the Cafe space between the hours of 7:30 A.M. and 9:00 P.M. Monday through Friday, 8:30 A.M. through 5:30 P.M. Saturday, and 11:00 A.M. through 5:00 P.M. Sunday.
9. The Contractor shall have no right to use the premises except during those hours described above or as specifically permitted by the Library Director. The cafe operation shall not interfere with the normal operations of the Library.
10. The City or individuals as permitted by the City may use the Cafe seating space at times when the cafe is not operating, provided that such use shall not be inconsistent with the Contractor's use and the City notifies the Contractor of such intended use in advance. The Contractor shall not be responsible for any damage to the Premises caused by the City or such individuals or groups. The seating area is to be available to all library patrons even if they have not purchased food from the cafe.
11. The term of the agreement resulting from this RFP **shall extend for one year from the date of contract execution.** The City may, at its discretion, extend the contract for **two additional one year terms.** Prior to exercising an option to renew, the City reserves the right to review financial records of the Contractor, including statements of revenue and operating expense for the Café. The City may, if warranted, require the Contractor to enter into good faith negotiations regarding an increase in the license fee prior to renewing the contract.
12. The City may terminate this Agreement at any time upon thirty (30) days written notice for any reason including its own convenience or for cause, including but not limited to, failure to pay monies due for use of the Premises, failure to have any necessary local, state or federal licenses and/or permits, failure to comply with any local, state or federal regulations pertaining to food establishments of this type, and failure to promptly correct any use of the Premises which conflicts with the City's use. In the case of a termination for cause, the City shall give the Operator a written notice of termination stating the basis of the termination, effective thirty (30) days after the Contractor's receipt of such termination notice. The Operator shall have the right to cure the for cause termination within ten (10) days of receipt of the termination notice.
13. The Operator will be responsible to hire and supervise its own employees as required to prepare and serve the food it provides, and shall be in charge of all the day to day operations of the cafe, including, but not limited to the ordering and preparation of food, oversight of the area where the food is to be consumed including discouraging food from being taken to other areas of the building, and cleaning of the food preparation area and the seating area.
14. A qualified on-site manager must be present 20% of the overall operating hours of the Café. A trained, responsible employee must be available during all other operating hours of the Café. In addition, the Library Director shall have direct access to either the manager or Operator during all operating hours.

15. Before beginning operations, the cafe operator will be expected to provide certificates of insurance, naming the City as an additional insured reflecting the existence of at least \$1,000,000 of General Comprehensive Liability Insurance, including Products and Completed Operations coverage and workmen's compensation insurance covering any employees. The Operator will be responsible for providing property loss insurance for its own property located in the Cafe Space.

6. References. A minimum of three business references should be submitted from individuals in a position to observe the proposer in related work.

Initial Evaluation

Responsive proposals will be evaluated based on the following comparative criteria:

1. The proposed menu will be judged on its variety and price. Menus which meet the Proposed Menu at a reasonable cost will be considered highly advantageous. Menus which meet the Proposed Menu at a high cost will be considered not advantageous.
2. The proposed dishes and utensils for serving the food and drinks will be judged on their quality and attractiveness. Dishes and utensils which combine high quality paper/plastic materials with excellent durability and attractiveness will be considered highly advantageous. Those which provide good quality paper/plastic materials, durability and attractiveness will be considered advantageous. Those which are poor in quality or unattractive will be considered not advantageous.
3. Proposers or on-site managers with more than three years experience in the food service industry will be considered highly advantageous. At least three years of such experience will be considered advantageous. Less than three years of such experience will be considered not advantageous.
4. Proposers with an on-site manager (including the proposer if applicable), who has successfully completed at least one accredited food safety course or program will be rated advantageous. Bidders with an on-site manager who has completed additional food safety, and other food management and/or food preparation courses will be rated highly advantageous. Bidders with an on-site manager who has not successfully completed a food safety course or program will be rated not advantageous.
6. The proposed Cleaning and Maintenance Schedule will be evaluated for compliance with all state health, sanitation and safety standards and to determine whether it will lead to the preservation of the City provided space and equipment in good working order. If the Schedule contains basic health and sanitation practices, meets all safety standards and contains adequate provisions to ensure the continued good working order of the City provided space and equipment, the proposal will be rated advantageous. If the Schedule does not contain sufficient safety standards or basic health and sanitation practices or fails to contain adequate provisions to ensure the continued good working order of the City provided space and equipment, then the bid will be rated not advantageous.
7. The proposed Business Operations Plan shall be evaluated for financial adequacy and adequacy of service. Those Plans presenting an exceptional degree of service, while making sense financially and showing that the necessary capital is available, will be rated highly advantageous. If the Plan makes sense financially, shows that the necessary start up capital is available and will provide appropriate service for the library's patrons, the proposer will be rated advantageous on this criteria. If the Plan does not make sense financially, fails to show that the necessary start up capital is available or is insufficient to provide appropriate service to satisfy the needs of the library's patrons, the proposal will be rated not advantageous on this criteria.

Final Evaluation

Based on the initial evaluative criteria each proposal will be assigned an overall ranking of Highly Advantageous, Advantageous, Not Advantageous or Unacceptable. Those proposers whose submittals are rated Advantageous or better will be scheduled for an interview and tasting, the purpose of which is to permit the evaluators to discuss the proposer's and on-site manager's experience and qualifications in depth, to evaluate the proposer's and on-site manager's interpersonal skills, dependability and flexibility, and to evaluate by tasting a representative sampling of the food being proposed. Because of the nature of the relationship between the cafe manager and library administrators, it is important that the evaluators be able to determine whether the proposer and on-site manager will be able to work with library administrators on an on-going basis.

The results of the interview and tasting will be evaluated according to the following criteria:

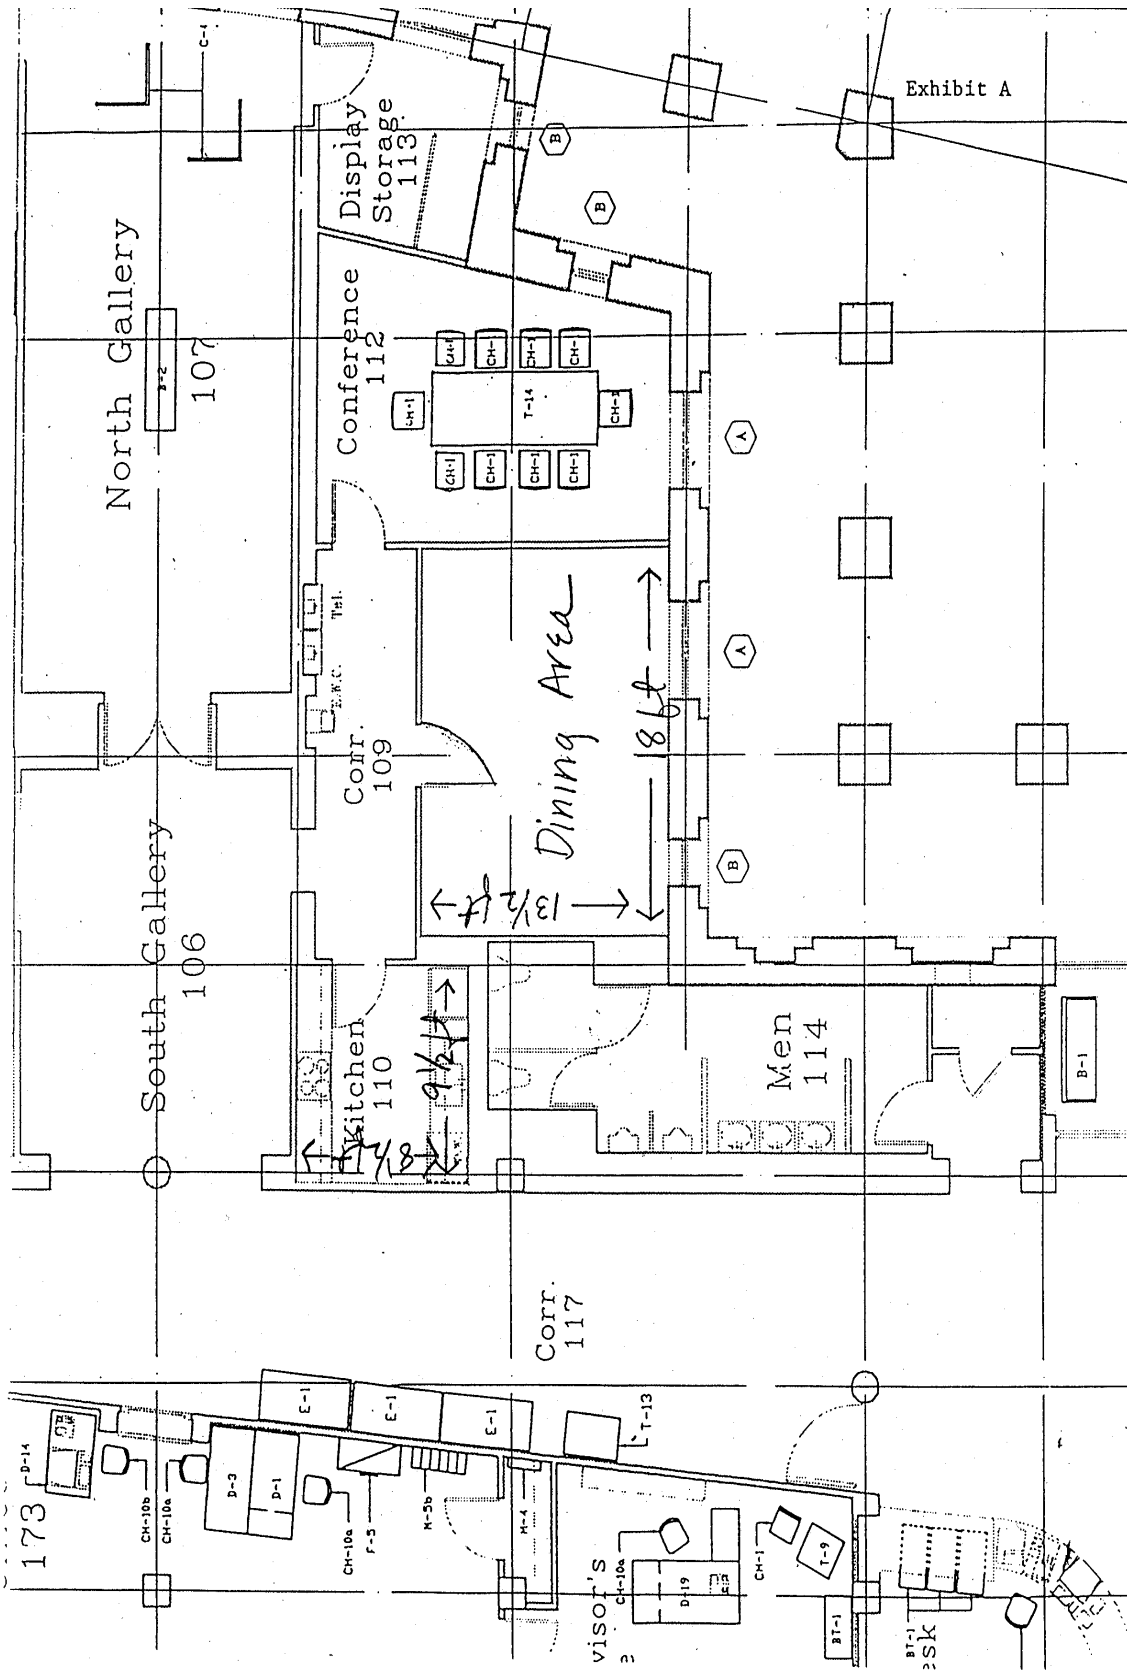

1. The quality of food products will be measured through the tasting and by judging their appearance. Fresh and appealing ingredients combined in appropriate proportions with a good taste and visual appeal will be considered highly advantageous. Those which have poor taste and/or poor visual appeal will be considered not advantageous.
2. Proposers and on-site managers who evidence excellent interpersonal skills, dependability and flexibility will be rated highly advantageous. Those evidencing an acceptable level of interpersonal skills, dependability and flexibility will be rated advantageous. Those not evidencing the requisite qualities will be rated not advantageous.

Award of Contract

The contract will be awarded to that proposer deemed by the evaluation committee and the Chief Procurement Officer to have submitted the most advantageous proposal taking into consideration all of the listed comparative criteria. The City reserves the right to reject any and all proposals as determined to be in the best interests of the City.
